

## CANADIAN LOBBY ON RACK

Senate Orders Investigation of Its Activities

## FOLLOWS PASSAGE OF REPRISAL MEASURE

Retaliation Against Blacklist to Be Provided by Congress

Washington, Sept. 9.—Although the north Pacific fisheries matter ended in a blaze of anger in the Senate yesterday and in the adoption of a resolution directing Senator Overman's lobby committee to investigate the alleged activity of Canadian government officials in Washington, for the purpose of influencing American legislation, it is doubtful if the authorities of either country will permit the situation to drift into such a condition as to reopen the ancient fisheries controversy which the United States had supposed closed by agreement some time ago. Thanks chiefly to the persistence of Representative A. P. Gardner, the conference committee eliminated Senator Chamberlain's amendment prohibiting the importation of certain fish through Canada except in bond from an American port. Capt. Gardner's insistence was due, however, partly to the belief that the troublesome situation created by recent British orders in council favoring the Canadian port of St. Rupert as against the Alaskan port of Ketchikan could be disposed of by diplomacy, notwithstanding that so far informal protests from the United States against the action of the Canadian government have proved ineffective. It is evident that the British authorities are aroused by the earnestness with which the Pacific coast senators have determined to resent what they believe to be unfair discrimination and that the British ambassador will exert his influence to secure a peaceful adjustment of the controversy.

The resolution was adopted after the Senate had disposed of a similar resolution by referring it to a committee. The new resolution adopted provides for a report at the next session of Congress.

Senator Chamberlain of Oregon, protesting against action of the revenue conference in striking from the bill his amendment which would prohibit the admission of Pacific ocean salmon and halibut through a foreign country except in bond from an American port, declared Congress had surrendered opportunity to develop a great American industry.

"Talk about a lobby influencing Congress!" he cried. "What is that when a distinguished gentleman representing the Canadian government, Sir Joseph Pope,

## CLEANSE THE BLOOD AND AVOID DISEASE

When your blood is impure, weak, thin and debilitated, your system becomes susceptible to any or all diseases. Put your blood in good condition. Hood's Sarsaparilla acts directly and peculiarly on the blood—it purifies, enriches and revitalizes it and builds up the whole system.

Hood's Sarsaparilla has stood the test of forty years. Get it today. It is sure to help you.—Adv.

while he may not have besieged Congress has been besieging officials of this government not to discharge this measure."

Senator Reed, Democrat, a member of the lobby committee, said he believed it was high time for the American government to show other nations that it regarded as offensive any efforts to influence to discharge this measure.

Lewis Wants New Inquiry.

Senator Lewis, Democrat, urged that if anything should be investigated, it should be the recent demands of Japan on China. He declared that apparently they were in retaliation to the attitude of this country toward admission of the Japanese. Russia, he said, was a party with Japan and sought retaliation because of the abrogation of the American commercial treaty.

## JOHN D'S JOKE ON BARBER.

Promises German a Drink and Gives Him Cold Water.

Tarrytown, Sept. 9.—John D. Rockefeller's favorite story to his golfing companions these days concerns his German barber, whom he invited for an automobile ride a few days ago. On the trip the oil magnate asked the barber if he would have a drink and the tenuous answer, surprised but delighted, answered that he surely would.

"Wait until we get home," said Mr. Rockefeller, "I've got a fine cold drink." The barber had visions of a cold bottle and the oil magnate encouraged his desires by remarking it would be a pleasure to treat him. Arriving home Mr. Rockefeller proffered the barber a glass of the pure cold water for which the Pocantico Hills estate is noted. The barber drank, but Mr. Rockefeller chuckled gleefully at the joke he had played.

## "DRY" SPELLBINDERS ARE OFF.

Hanly to Visit 500 Towns in His Long Stumping Trip.

Chicago, Sept. 9.—Cheered by a crowd that packed the union depot, the prohibition party national candidates and speakers left Chicago yesterday on a special train for a transcontinental tour. The presidential candidate, J. Frank Hanly of Indiana, and the vice-presidential candidate, Ira Landrith of Nashville, Tenn., headed the party.

The tentative schedule thus far announced will put the campaign special in San Francisco Sept. 20. After a 12-hour swing through a dozen Illinois towns and cities yesterday, closing with three simultaneous meetings in Rock Island and Moline, Ill., and Davenport, Ia., the campaigners will bombard eight Wisconsin towns to-day. They are due to reach Minneapolis Sunday. More than 500 towns will be visited on the tour.

## WILSON CLOSES HIS DESK FOR DELAYED VACATION

The President Will Stay at Shadow Lawn Until After the Election.

Washington, Sept. 9.—After clearing his desk of all official business and holding a long conference with Sec. Lansing in regard to the Mexican situation, especially the work of the joint American-Mexican commission now in session at New London, the president left here yesterday afternoon for Atlantic City.

Accompanied by Mrs. Wilson, Sec. Tamm, Dr. Cary T. Grayson, newspaper men and stenographers, the president arrived in Atlantic City at 5:45 p. m. and addressed the woman's suffrage convention last night.

Pres. Wilson spent the night at Atlantic City, making the trip from there to Long Branch by auto this morning. He will remain at Shadow Lawn until after the election, leaving only for occasional trips to interior points of the country for campaign speeches.

The first of these is scheduled for Sept. 20, when he will go to St. Louis to discharge the life insurance underwriters' convention.

## FISH JUMPS IN BOAT.

Bass Frightens Children Rowing on Fox River.

Lake Mills, Wis., Sept. 9.—You don't have to bait 'em here. They come after you. Lloyd and Irene Thomas of Waukesha, Wis., 10 and 12 years old respectively, nearly capsized their boat when a five and one-half pound black bass jumped into it. Fishermen on Fox river came to the rescue of the children.

It has been reported on at least six occasions this summer that fish have jumped into boats on the Fox river and northern Wisconsin lakes. They are frightened when hit by motorboats which they are unable to see because of the dirty water.

## KING GEORGE REPLIES ON POLISH RELIEF

An Autograph Letter is Delivered to President Wilson.

Washington, Sept. 9.—British Ambassador Spring Rice called at the White House yesterday and left an autograph letter from King George V. of England outlining that country's views on the Polish relief situation. It is understood to follow the same lines as that from the president of France.

It was stated yesterday that this country probably would make public the correspondence between President Wilson and foreign rulers in order to show what had been done in an effort to get relief to Poland.

## A Milford, Mass., Killing.

Milford, Mass., Sept. 9.—Amiable Sciarillo and Nicola Orsogno, arrested yesterday charged with the murder Thursday night of Harry W. Butler, a patrolman, pleaded guilty when arraigned in a local court and were held without bail.

## FOUR BRITISH STEAMERS ARE SUNK BY U-BOATS

The Ellerman Liner Tagus One of the Victims—Displaced 5,556 Tons, 410 Feet Long.

London, Sept. 9.—The Ellerman liner Tagus and three other British steamships, the Strathay, the Hazelwood and the Heathdene, have been sunk.

Despatches to Lloyd's report that the crew of the Strathay were saved. Thirty-four were landed from one boat and the others were brought in later.

The Tagus displaced 5,556 tons and was 410 feet long. She was built in 1909 and was registered at London. The Hazelwood displaced 3,102 tons and was registered at Middlesbrough. The Tagus was in the service of the Royal Steamship company and traded with the West Indies. She carried no passengers. The Heathdene displaced 3,541 tons and was registered at the port of Newcastle.

## ROOSEVELT FILM TO AID HUGHES

Republicans and Progressives Snapped at His Home—Colonel's Lawn Used.

Oyster Bay, Sept. 8.—Colonel Roosevelt and prominent Republicans and Progressives working for the election of Charles E. Hughes were filmed in moving picture style at "Sagamore Hill" yesterday. The colonel's guests came from New York City by special train. The pictures are intended to show that men of all shades of Republicanism were a unit in working with Colonel Roosevelt for the election of Hughes.

The lawn was suited to the needs of the movie man. Colonel Roosevelt came out of the house wearing a khaki suit and black leather leggings. While waiting the movie man's word he was congratulated upon his Lewiston speech.

"That was mild compared with what I am going to say at Battle Creek. When I get there I'll skin them alive," he laughingly replied.

The first picture taken was of Colonel Roosevelt and William R. Wilcox. Then Everett Colby and George W. Perkins joined the group, and the four were pictured. The next group contained these four and Charles E. Warren, C. N. Bliss, Jr., Frank A. Hitchcock, W. Cameron Forbes, Philip McCook, L. O. Murray, and Walter F. Arnold.

## WILSON LAUDS CONGRESS' WORK.

President is Pleased with Humane Legislation.

Washington, Sept. 9.—President Wilson says of Congress:

"A very remarkable session of Congress has just closed, full, as all recent sessions of the Congress have been, of helpful and humane legislation which constitutes contributions of capital importance to the defense, the economic progress, and the wholesome life of the country."

"It is to be regretted that the session could not have continued long enough to complete the program recently projected with regard to the accommodation of labor disputes between the railways and the employees, but it was not feasible in the circumstances to continue the session any longer and therefore only the most immediately pressing parts of the program could be completed."

The rest, it is agreed, has merely been postponed until it can be more maturely deliberated and perfected. I have every reason to believe that it is the purpose of the leaders of the two Houses immediately upon the re-assembling of Congress to undertake this additional legislation.

"It is evident that the country should be relieved of the anxiety which must have been created by recent events with regard to the future accommodation of such disputes."

## \$545 A MILE PROFIT.

Railroad Revenues Show Increase Over Last Year.

Washington, Sept. 9.—A net profit of \$545 a mile is the report for 67 of the largest steam railroads in the country during last July. In July of last year the profits were less by \$43 a mile.

The net revenues made public yesterday by the interstate commerce commission are \$41,355,921. In July, 1915, the net revenues were \$36,328,588. A comparison of the profits of the railroads all over the country shows that the eastern companies reaped the largest harvest.

## NOTIFIES DANISH MINISTER.

Secretary Lansing Advises Him Treaty is Ratified.

Washington, Sept. 9.—Following the ratification of the treaty by the Senate Thursday, Secretary of State Lansing yesterday advised the Danish minister of the success of the measure. Notification also was sent to the American minister at Copenhagen.

## BASEBALL BRIEFS.

Detroit's pennant hopes were set back Thursday when their pitchers failed to locate the ball, losing 13 passes, thus enabling the Browns to win by a score of 6 to 5.

A Philadelphia writer that Shibe park is no longer a breathing place for the other American league teams. Every team has to fight for every game. Connie Mack has a number of ambitious youngsters that are fighting throughout the game in order to show what they have.

Lawry, the Maine second baseman, is thought by some of the Red Sox players to be the fastest player in the league. He has the knack of sliding into first base when there is a base hit in sight by doing so.

Slim Sallee, the New York pitcher recently purchased from St. Louis, is confined to the bed on account of ptomaine poisoning. Sallee had an attack of this trouble about two months ago, but was able to throw it off.

Charles (Chick) Evans, the Hartford pitcher who jumped into the limelight by pitching a no-hit, no-run game in the old Connecticut league, died in Schenectady, N. Y., last week. In this famous game pitched by the one-time famous pitcher not a ball was hit out of the diamond and only 27 men faced him.

Baneroff, the Philly shortstop, is beginning to work around into the form which made him a star of last season, as his all-around work in the recent series with the Braves indicates.

The jinx is certainly on the trail of the Braves, after Neff and Allen, their two star lefthanders, were put on the sick list, Rabbit Maranville receiving a broken nose, which would naturally slow his work; Johnny Evers, their star second baseman, out of the game with a lame arm, a few of the older members with cases of "charley horse," and then to have Long Tom Hughes taken out of the game with a broken wrist at a most critical stage in the race goes to show that luck in all its forms is fighting the Boston team day after day. The injury to Hughes will mean a lot to the Braves, as he is the one pitcher that has been able to hold his opponents down to a small number of hits continually through the season.

The baseball game in Bethel on Labor day between the married men and the single men resulted in a score of 11 to 6 in favor of the husbands. There were many old-timers in the married men's lineup, among them being Ralph Shaw, the old Goddard seminary and University of Vermont infielder; Jack Gay, who received some notoriety as a ball player among the Vermont baseball circles some years ago, and Joe Wilson, the old Bethel backstop, who has out many runners among the Barre teams from stealing second in the old days.

## NEW YORK STRIKE BROKEN.

That's the Claim Made by Traction Officials.

New York, Sept. 9.—With subway and elevated train being operated apparently on normal schedule, traction officials insisted yesterday that New York's strike had been broken. Fifty per cent of the "green cars" of the New York Railways company surface system were running, the company announced.

Union leaders, on the other hand claimed at noon that 3,500 men were on strike on the subway and elevated roads of the Interborough Rapid Transit company and 1,000 men on the "green car" system.

Theodore P. Shonts, president of the Interborough announced that all of the men who have struck on the New York Railways company lines owned by the Interborough could have their positions back with their former places of seniority restored to them, if they resigned from the union by 1 p. m. to-day.

James T. Wadell, "king of the strike breakers," was handling the situation for the companies and promised to crush the strike in 48 hours. There was some disturbance Thursday night, but no real rioting.

## MARKED DECLINE REGISTERED.

In New York's Epidemic of Infantile Paralysis.

New York, Sept. 9.—A sharp decline in infantile paralysis cases was shown yesterday in the figures announced by the health authorities.

The total new cases were 45, or 13 fewer than Thursday, while the deaths were 13, also a drop of 13.

The death rate, however, has risen to 41 per cent.

## Bay State Plague.

Boston, Sept. 9.—Twenty-three cases of infantile paralysis were reported yesterday to the state department of health, making a total of 99 this month. The new cases included seven in this city and four each in Springfield and Pittsfield.

## TROOPS ON BORDER TO AWAIT CONFERENCE

Neither the Militia Nor the Troops of General Pershing Are to Withdraw.

Washington, D. C., Sept. 9.—Neither all of the militia stationed on the border nor General Pershing's column will be recalled until the Mexican-American conference at New London makes its report on that subject, it was stated on high authority here yesterday.

In the meantime, it was said, the plans to send other militia organizations now in their state camps to the border have not been changed.

It was not said that a report by the

commission would necessarily be followed by an order withdrawing all the troops, but it was declared they would not be recalled before such a report is made.

The order for the troop removal, it was said, rests entirely with the president.

## FARM CROPS HARD HIT.

Hot and Dry Weather in August Causes Heavy Loss.

Washington, Sept. 8.—Hot and dry weather during August caused a loss of 67,000,000 bushels in the prospective production of corn, 43,000,000 bushels in spring wheat crop, 43,000,000 bushels in the oats and 46,000,000 bushels in potatoes. Tobacco production prospects increase 27,000,000 pounds.
